seventh knight pc security + gaming accelerator 2

I can't make head nor tail of this. The instructions are gibberish - possible a bad translation and everything is so much more complicated than it needs to be. If a simple game is going to have controls as somplex as this, then the DEVS need to give some really clear instructions on how to play.. It's called outdoor living, but you can't live an outdoor life. Really EA?. This game could have been a lot better, but it isn't. The ship upgrading part of the game is pretty cool and that had me excited.

Unfortunately, that was all. It would be nice if you received more money to better experience what all the upgrades have to offer.

The collision\hit boxes are terrible, primarily on your own ship. You try and go around a stationary enemy and you end up with a collision even though there was plenty of space between.

The camera isn't entirely top-down like most shoot-em-ups, but that's not necessarily a good thing, especially not with this game. Sometimes it's almost impossible to tell if any bullets are going to hit you or if you're able to dodge them. Chances are, you're going to get hit. There's a game called AirStrike. That one's much better.

At first I thought this game was designed to be tough, but later on I just wasn't so sure. I enjoyed Raptor, Tyrian, and Do-Don-Pachi. This game felt like it was challenging only due to design flaws.. Fantastic Game for all Alien\UFO lovers. It is short and I beat it in a day, but I will definitely come back to it and play it on those nights when im in the mood for some quick goofy fun. I had no glitches\problems while playing this game, and im sure it will run on anyones computer no problem due to its simple graphics. Now what are you waiting for? Get this game, and save your farm from the aliens!!!!. This is a cool VR demo with five tiny but beautiful Jurrassic park like domes. There is also a simple wave shooter section and a small dinosaur museum.

It has very little content and no replay value when you have finished the game the first time. Dinosaurs are scripted and mostly does not react to your presence or your actions. Visuals are OK but slightly blurred even with high quality and Steam supersampling. Definitely not worth the asking price, but it works well as a VR demo for friends that are new to VR. Buy only when on sale!. does not support xbox360 controller... this makes it a thumbs down for me. a nice story, but I found after 2 playthroughs that my decisions don't really seem to matter too much. if you're looking for a story where your decisions effect the plot at all, this isn't for you

I dunno if I'd go out of my way to recommend it? I personally enjoyed it because I love this kind of topic- raising animals and such. it was easy to grow attached to your gryphon

it could be better but it gave me a few solid hours of entertainment and was worth the few bucks I paid I'd say!. good game but become extremely laggy and unplayable once you got a bit of land. Was a very good game when I bought it, I still like it but man the new update makes it VERY bad with the real estate market.

Exactly the kind of DLC I wish every company these days would invest in, Bought for me, and made all my friends buy it.. The mechanics in this game is wonderfully executed, Visuals is where it is lacking.. The thing I like most about this game is the concept of champions for pvp where the characters are preset and equal. A concept desperately missing from the cash grab game industry where a level 50 with stacked gear fights a level 20. This feels like a game created by fans for fans. Now just make a Bruce Lee style character with punches and kicks so I can continue my commodore 64 flashback.. Canvas The Gallery, a pretty neat painting game. Not much else to it at the moment however.. Very immersive, and very fun. At times i would be on the floor trying to hide behind any part of my snow fort that i had left. It gets progressively much harder throughout the levels, but still fun. I cant wait to see whats going to be added because right now it feels like a very polished game. For the price i would highly recommend.. Beat the game in 72 minutes. (1.2 hours)

I really enjoyed the soundtrack that came with this game. Nothing crazy or special, just sounded nice to listen to.

The levels were made with some thought, though some were a bit easier compared to the level just before it.

The ending is a bit difficult but not all that challenging.

In the end I'd give this game a 7.5/10.

P.S. I love bopping so I loved this game.. Ok the locations are breathtaking in this DLC but a lot of bugs. The speed markers are not defined properly and you won't even know when to loose speed or gain speed to match the specified speed. You cannot get good career XP by this DLC but it's good for fun.. If you like a story driven game that glues you into a story than here it is . I did only play one chapter but its fun , you can make it harder but i do like the "normal"mode

Later i revisit on harder mode as i first want to enjoy the story.

There is Mod support an as there are genius moders out there we can have fun even longer .

This is a gem , it does not super polished but with a good fun story this is easy overlooked .

If you buy it i hope you like this as much as i do :). I really enjoyed this game with its neat craftverse story, branching storyline and well thought out characters. The decisions I made felt well thought out and consequential with the story completely changing depending on actions I took several chapters ago. The game functions as series of seven self contained scenarios featuring literature staples like the detective story, the tough negotiation and the rescue mission, all tied together by the overarching theme of balancing the cities needs for water with that of its surroundings. Some earlier reviews have talked about the difficulty of approaching the game without prior knowledge of the craftverse and also the somewhat overstretched nature of the storyline. These faults are not difficult to miss but I think that the game is well worth buying, especially if you enjoyed the earlier deathless games.
